How to sign up for and complete online portion of NRP:

Hello all and welcome to NRP for Midwives, Midwife students, and Birth Attendants,
There are two Parts to this class:
Part 1 is online, Part 2 is hands-on class.

Don't wait to do the online part because it can take several hours to complete. It took me 9 ½ hours. (Registration was frustrating and confusing and I had to learn how to do eSims, i.e. play video games) Hopefully this letter will help you breeze through those areas.

Read 7th Edition Textbook of Neonatal Resuscitation- all 11 chapters. Books cost about \$69 and can be purchased from AAP Bookstore online – an awkward site in my opinion, or bought or rented from an online bookstore.

Take the online test and complete the eSims (video game-style resuscitation drills) and print your Certificate of Completion. This is administered by HealthStream and is on the NRP website. More about that in a minute. The test will cost \$35. There are 2 “Sections” to this “Part” 1 of the process. Section 1 has 25 questions about Chapters 1-6 in the book. Section 2 asks 25 questions about chapters 7-11. This is an open book, no time limit test so take your time. You can repeat each section as many times as it takes to pass. Below is a list of the commands you will enter to go through the entire process.
